Please remember we're talking in Harley terms here, so while the motor is the same 68bhp push-rod lump, the 23 kilos less the Deuce has to haul around is what's making the slight performance difference. What is completely different is the look. The Deuce has a nice stripped-down raw edge to it that make it look cooler compared to the Classic.

The Deuce is a boulevard cruiser - it is not a tourer! It looks great slicing down the highway with its raked-out front fork and layed back attitude. It's great on day trips out into the countryside. But, it wouldn't be my first choice for a long journey spanning several days.
