There are gaps in every natural area on the planet, created when animal species paid the price for the expansion of our own species--in other words, extinction. The initial spread of humans from our ancestral home in Africa happened so long ago that most of the first victims were never preserved or even depicted.

~~A Gap in Nature: Discovering the World's Extinct Animals~~

A Gap in Nature: Discovering the World's Extinct Animals with text by Tim Flannery and illustrations by Peter Schouten is a sobering look at the effects of humanity on the animal kingdom.
