A Universe From Nothing: Why There Is Something Rather than Nothing— that's the latest book by Lawrence Krauss. He's a theoretical physicist and professor of physics at Arizona State University, very influential atheist, and you can check the podcast concerning the debate that Dr. Craig had with Dr. Krauss. [1]

A Universe From Nothing | Reasonable Faith

The nothing that Lawrence Krauss describes in this book is not nothing. He is not describing the beginning of the universe from nothing, but the beginning of the universe from a quantum vacuum, which is described by physical laws and takes place in space-time. I don't think the content of the book lives up to the title.
