Accounting for Investments
Investments are financial assets which represent a company's right to receive cash from its stake in bonds, shares, real estate, etc. The intent behind making such investments is to generate investment income (interest and dividend) and to benefit from expected capital gain.

Finance is a term for matters regarding the management, creation, and study of money and investments. Specifically, it deals with the questions of how and why an individual, company or government acquires the money needed - called capital in the company context - and how they spend or invest that money. Finance is then often split per the following major categories: corporate finance ...
