The Airbus A330 is a wide-body aircraft designed and produced by Airbus Airbus conceived several derivatives of the A300, its first airliner in the mid-1970s. Then the company began development on the A330 twinjet in parallel with the A340 quadjet and launched both designs with their first orders in June 1987. The A330-300, the first variant, took its maiden flight in November 1992 and entered ...

Airbus A330 - Wikipedia  
According to Airbus, the A330-300 ' s typical OEW is 267,200lbs-274,500lbs. In addition, for both the A330-200 and -300, Airbus points out that while the lower take-off weights still exist as certificated options, all recent customers have taken delivery of only the newest and most capable weight variants. This ensures ample range capability.
