specs are not available. I have found a couple of websites that carry things like gear ratios, torque ratings ...

BNO BBS - BNO's Bulletin Board System: Allison HT 740-750
The HT740 was designed for engines up to 425 hp and 1300 lb/ft of torque, but in transit buses those ratings are reduced to 350 hp and 1100 lb/ft. The HT747, with its special three-gear pump for better coolant flow, is used only in transit buses and is rated for engines producing up to 350 hp and 1100 lb/ft.
