When the students had the opportunity to review their notes, they generally performed better on the assessment if they took notes by hand than by a laptop.

~~How Should Students Take Notes? — The Learning Scientists~~

Active note-taking means: Think about what you want to get from your reading and why you are making notes – how much detail do you need to read, and how much detail will you need in your notes? Look for answers to the questions you need to address: are you looking for definitions, examples, or debates/theories? Look for connections between what the current text says and anything you have already read: do the authors agree?
