The MIT App Inventor (<http://appinventor.mit.edu/>) interface includes two main screens, a Designer Screen, which is a graphical user interface (GUI) where you can create the look and feel of the app (choosing the components you want the app to include), and the Blocks Editor, where you can add behavior to the app by coding it with colorful blocks. Users build apps by dragging components and blocks from the menu bars onto a workspaces (called Viewers) and a connected Android device (or ...
