A variety of exercises provide flexibility in lab assignments. Each exercise includes key terms and learning concepts linked to Geosystems. The 10th Edition includes more integrated media, including Quick Response (QR) codes linking to Pre-Lab videos. Supported media resources needed for exercises including KMZ files for all of the Google Earth (TM) exercises found in the lab manual.

Applied Physical Geography: Geosystems in the Laboratory ...

Geography is governed by a method—a spatial approach—rather than by a specific body of knowledge. Physical geography, therefore, centers on the spatial analysis of all the physical elements and processes that comprise the environment: energy, air, water, weather, climate, landforms, soils, animals, plants, and Earth itself. Physical geography, as a spatial human-Earth science, is in a unique position among sciences to synthesize and integrate the great physical and cultural diversity ...
