Automation Production Systems And
Computer
Automation, Production Systems, and
Computer-Integrated Manufacturing
provides up-to-date coverage of
production systems, how they are
sometimes automated and
computerized, and how they can be
mathematically analyzed to obtain
performance metrics. The text is
designed primarily for engineering
students at the advanced
undergraduate or beginning graduate

Automation, Production Systems, and
Computer-Integrated ...

Automation, Production Systems, and
Computer-Integrated Manufacturing is
appropriate for advanced
undergraduate/ graduate-level courses
in Automation, Production Systems,
and Computer-Integrated
Manufacturing. The book should also
be useful for practicing engineers and
managers who wish to learn about
automation and production systems
technologies in modern manufacturing.

Automation, Production Systems, And
Computer-Integrated ...

Automation - Automation - Computer-integrated manufacturing: Since about 1970 there has been a growing trend in manufacturing firms toward the use of computers to perform many of the functions related to design and production. The technology associated with this trend is called CAD/CAM, for computer-aided design and computer-aided manufacturing.

Automation - Computer-integrated
