B2b market research more often addresses a strategic business need when compared to most b2c research projects. This erring toward strategic research is usually a symptom of the fact that many b2b research projects are driven at boardroom level, both in terms of identifying a need for research, but also in terms of actioning the research recommendations.

The Differences Between B2B And B2C Research | B2B ...  
And B2B marketing messages are communicated more in person since the small number of buyers makes that contact cost-justified. As described in more detail in the FAQ on the differences between B2B and B2C markets, the volume of B2B products purchased, and their complexity result in buyers who have substantial technical and operational expertise. So B2B buyers seek more detailed information, develop scenarios of potential problems, research alternative products, and take other steps to ...

The Difference Between B2C and B2B Market Research  
B2B vs. B2C Market Research Difference #2: More likely to involve telephone, web and email. Because B2B market research participants are business professionals – and often management level and above – it is both more practical and cost-effective for studies to involve telephone, web and email surveys vs. in-person interviews. Focus groups are even rarer in B2B market research, given the logistical difficulty of getting participants together in the same time and space.

B2B vs B2C Market Research: How It Differs  
The goal of B2C marketing efforts is to drive consumers to your website for sales conversions. B2B: The sales cycle is longer and more complex, where the focus of your marketing initiatives is to impact and influence the research, decision and buying stages of your ideal target audience.

Uncovering The Differences Between B2C and B2B Digital ...  
As was stated in the definition, B2B market research involves those who, in their capacity as owners or employees, are involved in decision making or operations on behalf of their company and are interviewed in their business, not their personal, capacity. This contrasts with B2C research, which involves end consumers.
