The ball lightning left two holes in the plane. A "ball of sparks" about the size of a basketball entered a commercial aircraft, apparently through an engine airtake, moved into the fuselage, and proceeded to chase a flight attendant up and down the aisle. She was screaming as she tried to outrun the ball lightning.

The Mystery of Paranormal Ball Lightning - LiveAbout

Ball lightning is an unexplained phenomenon described as luminescent, spherical objects that vary from pea-sized to several meters in diameter. Though usually associated with thunderstorms, the phenomenon is said to last considerably longer than the split-second flash of a lightning bolt. Some nineteenth century reports describe balls that eventually explode and leave behind an odor of sulfur.

"Ball Lightning" is a smoother read than the "Three Body Problem" was; the relationships are better developed, the storytelling less forced, and the political Great Leap Forward tropes that weighed down TBP are nowhere to be found. The future science though is not up to the same level that TBP was, making suspension of disbelief a bit harder ...
