The opening or the opening moves is actually the term that is used to indicate the group of first moves.

Normally, it starts with the first 10-12 moves of the pieces in the chessboard.

Furthermore, the term may be talked about by either of the sides, the black or white piece. However, an opening from the black piece may also be known as the defense.

Chess For Beginners | Study Plan: The Opening - Chess.com

It is probably too advanced for rank beginners, but they should be reading a basic primer, anyway, not an opening book. Herten's approach is more accessible to kids than typical opening books that cover only variations. I especially like the early chapters where he describes how to use each piece well in the opening and beyond.

The English opening is a flexible choice for white. The English often transposes into openings normally seen after 1. d4, either exactly or with slight variations due to move order. You can also enter a "reversed" Sicilian defense if black responds with e5, where white is playing the Sicilian defense with an extra tempo.
