65 percent of all doctors and biological scientists in the United States under the age of 40 began their study of biology with this book. For the Eighth Edition, new coauthors have joined with those from previous editions to infuse this proven text with new ideas while upholding its hallmark values. Their collaboration has produced the authoritative introduction to biology, told with a unified voice and vision.

Neil A. Campbell has taught general biology for 30 years, and with Dr. Reece, has coauthored Biology, Sixth Edition, the most widely used text for biology majors. His enthusiasm for sharing the fun of science with students stems from his own undergraduate experience. He began at Long Beach State College as a history major, but switched to zoology after general education requirements "forced ...
