Working at SIG is for Rob the closest thing to being a software doctor. In his role as a consultant, he combines his thorough technical knowledge on software engineering and software technologies to advise clients how to keep their systems in shape. In addition to

Acces PDF

Building

being a consultant, Rob fulfills a leading role in SIG's internal development team. This team develops and maintains the company's software-analysis tooling. It's Rob's ambition to leave the IT industry a bit better than he found it.

1. Introduction - Building Maintainable Software, Java ...

Maintainability is not the first topic of discussion when mantra is "build software to throw away". We're in an

Building

age of consumerism in software. We reinvent large pieces of software because we don't have a grip on existing ones to be able to repair or extend them. All the known acronyms including NIH are at work.
