Burris Eliminator Iii Manual  
The Burris tactical line of scopes and sights are optics designed for situations where there is no tolerance for failure: law enforcement work, facing a threat to your personal protection, or competing in a 3 gun or long-range competition. They also can pull double duty as a hunting scope. Whatever the use, the goal is the same: absolute accuracy and unfailing reliability.

We recommend the use of Burris Xtreme Tactical Bases, as they were designed to accommodate the Eliminator III LaserScope. Read the manufacturer's directions regarding the installation of mounts before beginning. Clean the mounting area of the rifle with a chemical that removes grease and oil. Pay special attention to screw holes.

The Eliminator III is the ultimate in long range hunting optics and provides a level of sophistication only dreamt of until now. With the Eliminator III you receive set up instructions as well as an extensive ballistic chart to match your specific load to the scope.

---

Burris Eliminator III Laser Rangefinding Rifle Scope 3-12x ...  
The Burris Eliminator Laser Scope uses Burris' X-38 reticle, which is very similar to a traditional duplex type of reticle. The laser rangefinder reports the actual distance to the target in yards at the 12 o'clock position in the shooter's sight picture. Hopefully a Mil Dot type reticle will be available in the future for tactical applications against moving targets as the laser should ...

Mounting the Burris Eliminator III – I Am Hunter  
Had a Burris Eliminator III and sold it because the range-finding was "twitchy", and it wouldn't deliver a firing solution past 800-ish yards. Waited and watched for an Eliminator IV when I heard it had improved technology and ranged out to 2,000 yards. One popped at Sportsman's Warehouse and I grabbed it. Received it early this week, and used it for the first time this morning. Here's what I ...

---

Burris Eliminator IV - First Shots Review | Sniper's Hide ...  
The manual adjustments also came in handy in the next trial, out to 1,000 yards. While the Eliminator III's maximum LED range is 1,200 yards, it only applies to flatter-shooting rounds. With my.308 load, starting off at about 2700 fps, the longest-distance dot to light up was at 800 yards.
