In Clinical Ethics, three clinical ethicists (a philosopher - Jonsen, a physician - Siegler, and a lawyer - Winslade) developed a method to work through difficult cases. The process can be thought of as the "ethics workup," similar to the "History and Physical" skills that all medical students use when learning how to "workup" a patient's primary complaints.

Jonsen, Siegler, and Winslade's *Clinical Ethics* (1982) is a practical handbook, that brings together practical moral guidelines (topically arranged) with pertinent medical principles and legal and professional precedents. Jonsen and his associates utilize there the four special topics of clinical medicine, without identifying them as such, because the link to rhetorical doctrine had not yet been firmly established in Jonsen's own mind.
