Calligraphy is the art of fine writing, communicated by agreed signs; if these signs or symbols are engraved on wood or on stone we have that extension of writing known as lettering, i.e. a large script generally formed with mechanical aids such as the rule, the compass, and square. But it is the essence of handwriting that it be free from such, though not from all government; and of beautiful handwriting that it possess style. . . .

Calligraphy and the related book arts began to attract designers and visionaries who revitalized the typeset page by reconnecting it to the handwritten manuscripts. Another wave of interest in calligraphy swept North America in the 1970s as cartridge pens, markers and copies brought the mechanics of the craft to the threshold of the hobbyist. (2)

Calligraphy history: Where does calligraphy come from ...

Western calligraphy is the art of writing and penmanship as practiced in the Western world, especially using the Latin alphabet. A contemporary definition of calligraphic practice is "the art of giving form to signs in an expressive, harmonious and skillful manner." The story of writing is one of aesthetic development framed within the technical skills, transmission speed and material limitations of a person, time and place. A style of writing is described as a script, hand or alphabet. Calligra

Western calligraphy - Wikipedia

Cursive is any style of penmanship in which some characters are written joined together in a flowing manner, generally for the purpose of making writing faster, in contrast to block letters. Cursive handwriting is very functional, and is intended to be used in everyday writing. Other than that, it is also used in art and calligraphy hand-lettering. Formal cursive is generally joined, but casual cursive is a combination of joins and pen lifts. The writing style can be further divided as "looped",
