Career counseling is a process in which people's interests, personality, values and skills are assessed and they are helped to explore career options. Career counseling provides one-on-one or group professional assistance in exploration and decision making tasks related to choosing a major/occupation, transitioning into the world of work or further professional training.

Competencies - 1985 ...*

A vocational guidance counselor can open avenues of opportunity and increase the self-esteem of clients who have physical and mental challenges. With the vocational guidance of an accredited counselor, clients learn to be more independent regarding their own care, achieve goals, learn job skills and find support systems that can lead to a better quality of life in many areas.

*(PDF) Career counseling - ResearchGate*

Career counselors use theories and assessments to help others make career choices, think through career problems, find jobs, and explore opportunities. Just like therapists, there are many different types of career counselors who use different theories, interventions, and assessments. One counselor might focus more on helping someone pick a career while another might help someone with job satisfaction or career development.
