Chapter 3

of Central Tendency
Measures of central tendency are numbers that describe what is average or typical of the distribution. Think of this value as where the middle of a distribution lies. The mode is the category or score with the largest frequency in the distribution. Can be calculated for:

Chapter 3 : Central
Tendency.

Overview. □

Definition: Central
tendency is a

statistical measure to

Get Free Chapter 3

determine a single score that defines the center of a distribution. The goal of central tendency is to find the single score that is most typical or most representative of the entire group.
