It's All About the Income, Chapter 5: Win by Winning

The trigonometric ratios sine, cosine and tangent are used to calculate angles and sides in right angled triangles. We are now going to extend trigonometry beyond right angled triangles and use it ...

Using the sine and cosine rules to find a side or angle in a triangle

Honestly the shirt does not look like the picture at all. It looks like a white box in the middle of the shirt. I thought it would be a lot cuter.

Trigonometry Math Pun White Ceramic

In mathematics, a bearing is the angle in degrees measured clockwise from north. Bearings are usually given as a three-figure bearing. For example, 30° clockwise from north is usually written as ...
