Rzeppa-type constant-velocity joint

Constant-velocity joints (also known as homokinetic or CV joints) allow a drive shaft to transmit power through a variable angle, at constant rotational speed, without an appreciable increase in friction or play. They are mainly used in front wheel drive vehicles.

Constant-velocity joint - Wikipedia

GKN Driveline Service Limited is an active company incorporated on 16 February 1960 with the registered office located in Sutton Coldfield, West Midlands. GKN Driveline Service Limited has been running for 60 years.
