warehouse or in the data lake, so you can derive insights and make informed decisions.

Industry Data Models | IBM

As a process model is to workflow or a data model is to information, a decision model is to decision-making: A clear and unambiguous way to describe decision-making by breaking down that decision-making into a set of simple concepts. The example shows a decision requirements model that uses the DMN notation.

The Role of Decision Modeling in Business

Download Free Data Models And Decisions The Fundamentals Of Management Science Decision ...

The Decision Model is unique in enforcing a rigorous process that ensures model integrity (i.e., making sure it is complete, unambiguous and conflict-free) as part of Business Logic discovery and formulation. It delivers an executable set of logic that can be consistently implemented across multiple business applications.
