The repair service covers any repair of Denon AVR-1708 1508 688 588 488 receiver with flashing red power light. Usual symptoms: After turning on the unit, the display shows "AV surround receiver", in several second green blinking power light turns to red blinking and the receiver shuts down by ...

### Denon Repair Services - EBC ELECTRONICS

Denon has been making A/V receivers for about as long as there have been A/V receivers, and it's rarely produced a bad one. The brand usually gleans more attention for its über-dollar high-end models than for the kind of high-value, midprice models that win the credit-card swipes of most buyers. But this new AVR- 991, with its suggested price under \$1,000 and its rich feature set, may change ...

This is by far the best AVR receiver I have ever owned. At home we have an Onkyo 608 and a Denon 1911. I purchased the AVR 991 for my office because I love the natural sound quality of the Denon. I stepped up to the 125 watt because I find myself wanting more power than the 1911's 95 watts. I primarily stream Pandora and watch cable occasionally.
