*Descartes' Bones: A Skeletal History of the Conflict ...*

The author follows the bones of Descartes in a detective like fashion, tracing our history and its progress behind the trail left by Descartes' bones. When the skull of Descartes appeared in a museum, many questioned whether it was really the head of Descartes. After all, all skulls look alike.

*Descartes' Bones: A Skeletal History of the Conflict ...*

Descartes' Bones is a historical detective story about the creation of the modern mind, with twists & turns leading up to the present day—to the science museum in Paris where the philosopher's skull now resides & to the church a few kilometers away where, not long ago, a philosopher-priest said a mass for his bones.

In Chapter Three, "Unholy Relics," Shorto describes how the philosopher's bones moldered in France for the next century, and a man by the name of Alexandre Lenoir, amid the furor of the French Revolution, dug up Descartes' bones and buried them in his "garden filled with historic tombs" (p. 117).

*Descartes' Bones: A Skeletal History of the Conflict ...*

Descartes' Bones. A Skeletal History of the Conflict Between Faith and Reason. On a winter's day in 1650 in Stockholm, René Descartes, the most influential and controversial thinker of his time, was buried after a cold and lonely death far from home. Sixteen years later, the French Ambassador Hugues de Terlon secretly unearthed Descartes' bones and transported them to France.

*Descartes' Bones | Russell Shorto*

Sixteen years after Ren Descartes' death in Stockholm in 1650, a pious French ambassador exhumed the remains of the controversial philosopher to transport them back to Paris. Thus began a 350-year saga that saw Descartes' bones traverse a continent, passing between kings, philosophers, poets, and painters. But as Russell Shorto shows in this deeply engaging book, Descartes' bones also played a role in some of the most momentous episodes in history,...
