6 DESIGNING FOR GROWTH Taking design seriously means acknowledging the difference between what scientists do and what designers do. Whereas scientists investigate today to discover explanations for what already is, designers invent tomorrow to create something that isn't. To get to growth, we have to create

~~Designing for Growth: A Design Thinking Tool Kit for ...~~

Design thinking is the way out of this trap. Great growth opportunities are indistinguishable from bad ideas at first, and there is no handy source of data to tell you which is which. Only a customer playing with a prototype can answer that. With design thinking, you can nurture disruptive possibilities and unlock the zeal in your organization.

~~—Designing for Growth « Designing for Growth~~

1. Overview of Design Thinking: In your own words, not copying or paraphrasing from the text, describe in detail the key stages and elements of design thinking. 2. Comparative Analysis: Compare, Contrast and differentiate the processes of Designing for Growth compared to typical business rational decision making.

~~Designing for Growth & Design Thinking — Acme Writers~~

If you want to design for growth, try to be mindful about catching the signal and seeing if there is this potential that is trying to express itself. For example, Airbnb was growing so fast because the industry was already trying to express its potential. The problem that it was lacking reputation tools, payment tools, and booking tools. Be open
