The first step in this process is the project proposal. Project Proposal Introduction The Project Proposal is a team document that is much like the PR/PMP (Project Requirement/Project Management Plan), the CDS (Conceptual Design Specification) and some of the FDS (Final Design Specification) you did in first year, all rolled together. It

Mechanical Handling Safety Solutions | Safe
Lift Equipment

The goal of this engineering project is to design an implant that fits within the forearm of an average sized person to allow for the fingers to firmly grasp and move fluidly while grabbing an asymmetric object. The concept design will be used in patients who have experienced high median ulnar nerve palsy. Damage to these nerves reduces the function of rotating and grasping of the hand.
