Fill the fuel tank if the Evinrude 40HP won't start. Look for kinked fuel lines at the same time, too. Push the shift lever back to the "Neutral" position, and try starting the outboard again. Allow the engine to stop, look at the propeller, and clear it of seaweed and other weeds if the engine won't stop promptly.

number. The model number will identify the year and certain details of that motor. 1980-Present: Evinrude outboards from 1980 to the present use a model number that can help determine the year and features of the motor. See the model number code here. Pre-1980: Evinrude outboards prior to 1980 do not have a consistent model number code.
