Trucks 2010 Emissions Service Information
If there is a fault, please refer to the instructions in Fault tracing of cables and connectors page 43. NOTICE! Some fault codes become inactive when the engine is stopped. Start the engine to check whether the fault code is still inactive with the engine running. After an action with the connector. Put the connector back.

Fault Codes Information of Volvo Engine
Fault Limit. Ratio = Time spent saturated low total time > 0.9. Enable Conditions.

VolvoFaultCodes.com

If 3 fault codes appear in a single row of nozzles, then there is a break between the nozzles and the contacts of the engine block EA12 or EA24. If one malfunction code appears, it means an open circuit between the corresponding injector and one of the contacts of the engine block (11,22,23,34,35,36).
