Download Ebook Fordson Major Engine

The front headlamps were mounted inside the grilles rather than externally to either side of the bonnet, as previously, and a new ' Fordson Super Major ' badge graced the sides of the bonnet. Red wheel centres remained, as used previously, and the output of the engine was still 52hp, as on the Power Major.

~~Fordson Tractors for sale | eBay~~

The Fordson E27N Major was an upgrade to the Fordson N, and made in England from March 1945, having the same engine and transmission as the Model N, but in a new casting which allowed for a PTO and a hydraulic lift unit manufactured by either Smiths or Varley. The differential however was of completely new design.
