Wild UK Mushrooms (Fungi): Guide to Identification & Picking
Pluteaceae. Psathyrellaceae. Russulaceae. Strophariaceae. Tricholomataceae.
Ascomycetes. For ease of use we have grouped all jelly fungi
(heterobasidiomycetes) together. Similarly all bracket and crust fungi are also
grouped, as also are the various puffballs, earthballs, earthstars and stiltballs that,
together with stinkhorns, are by tradition called gasteromycetes (even though there
is no scientific justification for their being categorised together other than the fact
