### **Handbook of Research on Stress and Well-Being in the ...**

Book Description: The purpose of this book is to summarize the state of the science in the study of stress and burnout among health care professionals. Moreover, this book seeks to set the agenda for future research in the areas of stress and burnout. Despite the popularity of these topics as subjects for empirical study, particularly among health professionals, there has been no attempt to build a comprehensive summary of the literature concerning stress and burnout in health care.

### **Handbook of Stress and Burnout in Health Care**
