About Equalization The Hartke Systems Model 3500/5500 Bass Amplifier gives you enormous control over shaping the sound of your bass, using a process called equaliza- tion. To understand how this works, it's important to know that every natu- rally occurring sound consists of a broad range of pitches, or frequencies, combined together in a unique way.

When I did order the Hartke HA 3500 from Thomann a couple of months ago, it was for a couple of fairly disdainful reasons, none of them having to do with sound considerations by a long shot: I knew that there was a bass amp that had been around for ages with considerable success. I knew I could rely on their delivering within the hour, and by all likelihood I'd be able to resell it as soon as I ...
