Honda accord engine swap compatibility - bs.acmilanstore.it

In car tuning culture, an engine swap is the process of removing a car's original engine and replacing it with another. This may be a like-for-like replacement, or to install a non-factory specification engine. Typically an engine swap is performed for performance, swapping-in a more powerful engine; however, an engine swap may also be performed for maintenance, where older engines may have a shortage of spare parts, and so a modern replacement may be more easily and cheaply maintained. Swapping

It is possible to fix the engine, but that can take a lot of time and money. Instead you might consider doing a Honda engine swap from another car with less miles on it. Or as an alternative, replace the engine with a brand new engine from the factory. These tend to be expensive. A low mileage used engine can be found in other used Hondas that you can buy from a private party, or you can find them at the local scrap yard.
