Differential Fluid : 10  
Steps (with Pictures ...  
Remove the differential  
carrier. Be careful not to  
damage the gasket  
sealing surface when  
removing the unit. Place  
both R and L bearing  
assemblies and shims in  
sets with the marked  
differential bearing caps  
so they can be  
reinstalled in their  
original positions.

YourMechanic Advice

To change your car's  
differential fluid, start

by jacking up the car  
and supporting it with

jack stands to ensure  
that the vehicle is at a

sufficient height. Next,  
place a container under

the differential to catch  
the fluid, and remove

the drain bolt with a  
hand or socket wrench.
