How to Cite Sources in APA Citation Format - Mendeley

When writing a piece of work, you need to refer in your text to any material you have used that has been written or produced by others. This procedure is called citing or quoting references. Citing materials that you have referred to correctly will enable you to avoid plagiarism. The majority of courses at BU require you to use the Harvard method of referencing.

How to cite references | Bournemouth University

If your sources are very important to your ideas, you should mention the author and work in a sentence that introduces your citation. If, however, you are only citing the source to make a minor point, you may consider using parenthetical references, footnotes, or endnotes. There are also different forms of citation for different disciplines.

How Do I Cite Sources? - Plagiarism.org

Record as much information as possible in references to make finding the original work simple. Author/s. Include the author/s name/s where possible. You should write the surname (last name) first followed by any initials. If there are more than three authors then you can cite the first author and use the abbreviation 'et al', meaning 'and all'.

Academic Referencing - How to Cite & Reference | SkillsYouNeed

Give an in-text citation (i.e. in brackets or footnotes, depending on the style you are using) at the place where they are included in your writing and a full citation in the bibliography or reference list for the text you got them from. This includes graphs and tables, as well as illustrations and photographs.

Citation examples - Citing references - LibGuides at ...

In-text references must be included following the use of a quote or paraphrase taken from another piece of work. In-text references are references written within the main body of text and refer to a quote or paraphrase. They are much shorter than full references. The full reference of in-text citations appears in the reference list.

How to Cite Sources in Harvard Citation Format - Mendeley

In your writing, you cite or refer to the source of information. A reference gives the readers details about the source so that they have a good understanding of what kind of source it is and could find the source themselves if necessary. The references are typically listed at the end of the lab report.

Citations and References: Documenting your Sources
