Shipbuilding/Ship Repair, which was held on November 26th-28th, 1984. The text of the proceedings consists of case studies and technical reports presented by shipbuilding labor and management members from around the world. The objective of the work- shop was to introduce new management practices and organizational structures designed to better utilize the shipbuilding human resource.

~~Human Resource Innovation in Shipbuilding~~

Significant innovations of a human resource nature have been introduced to international shipbuilding since the mid-60's. In the past few years, a number of U.S. yards have experimented with some of these practices (quality circles, semi-autonomous work groups, multi-skilled workers).
