Limited funding and time force abandoned mine land (AML) reclamation programs to prioritize closures. By entering abandoned underground workings, the true hazard level can be evaluated to determine which sites should be prioritized for closure. It is also often necessary to enter an abandoned mine in order to design and implement a suitable closure.

Because all land - including inactive or abandoned mine land -- has an owner, it is not clear whether this language limits the universe of LAMs that will be subject to the permit requirements. Another question arises regarding whether an "owner/operator" is "identifiable." Ownership of mineral interests is often highly fragmented -- e.g ...

## **Inactive and Abandoned Noncoal Mines - EPA**

National Reclamation of Abandoned Mine Lands by Michael N. Greeley, USDA - Forest Service, Washington, D.C. . Presentation to SME, March 1999 ABSTRACT. The movement to reclaim abandoned mine sites has gained momentum as federal, state, and private organizations have increased their commitment and resources to tackle mutual, and often controversial, problems of health and safety.
