Read Book Interpreting Company Reports

Most annual reports will present two balance sheets – one for the group and one for the ‘ company ’ (i.e. the holding company). This is a company law requirement. The group balance sheet includes all the assets and liabilities of the holding company and the assets and liabilities of the subsidiaries.

Understanding Annual Reports and Company Accounts

As an investor, you should be looking at the debt:equity ratio of the company. Debt:Equity ratio = long term liabilities / owner ' s equity. For example, say that a company has debt of £ 6000 and equity of £ 15,900. The ratio would equate to 0.38 (6000/15900). This means that the company has three times more equity to debt.
