Involuntary teacher transfers can improve school performance, Stanford researchers say. A study of Miami-Dade's transfer policy suggests that moving poor-performing teachers into better schools improves equity. June 25, 2014. By Andrew Myers. The ability to move teachers, against their wishes, to a different school is a necessary tool, argue school and district leaders, to improve teacher performance and get the right mix of teachers across a district.

When there is a change in student enrollment, school budget, or school programming, reducing the need for the number of teachers in a particular building.

Teacher transfers: finding the right fit
Other involuntary transfers may be initiated by the district to solve larger problems, such as teacher surpluses due to changes in student enrollment, academic programs, or the budget. Teachers unions and school administrators might agree that nothing affects students' achievement more than the quality of their teachers.
