[Chartered Membership exam January 2020: past paper - IStructE](#)

The IStructE's exam is all about preparation. The actual engineering behind it is fairly straightforward. Consider the exam like running a marathon: If you step out of the door right now and set off on a 26 mile run, there is a good chance you would not cross the finish line. However, if you put the time in and train yourself, gradually running longer distances over a period of time, the full distance is very achievable.

The Institution of Structural Engineers - IStructE

The Chartered Membership exam is one of two essential elements you must complete to become a Member of the Institution, the other is the Professional Review interview.. You can attempt the exam before or after your interview - whichever option suits you best.

Chartered Membership exam - IStructE

A series of numerical worked examples are presented, demonstrating the application of EC3 to common design situations. The use of the expressions given in the Standard is demonstrated, but also the use of look-up tables and other support resources. Each worked example is complemented by using the resistance tables in the 'Blue Book'. The examples cover the design of struts, restrained beams and unrestrained beams, and members subject to both compression and bending.
