This application component is known as Contract Accounts Receivables and Payables (FI-CA). SAP promotes FICA as a sub-ledger application alternative for the FI-AR module and Accounts Payables module (FI-AP). FI-CA was developed to deal with a large number of different customers and different types of receivables.

The contract account is a standard terminology often used when working with SAP FICA. It is the most significant medium through which business affiliates are connected to contracts. Several contracts can be categorized under many contract accounts, but when allocating a single contract, it is eligible for only one contract account.
