DFE Pharma

Pharmatose® and Lactochem® are DFE Pharma's brand names for pure white and highly consistent crystalline, milled lactose monohydrate grades. Lactose is mechanically milled to varying degrees of particle sizes allowing pharmaceutical companies to choose the grade best fitting their formulation needs. Due to its fine nature and relatively high surface area, milled lactose compacts well.

Press Release Inhalation Lactose Market Pivotal Point and Competitive Reach(2021-2030)|| DFE Pharma, Kerry, Meggle Pharma Published: Nov. 10, 2020 at 4:48 a.m. ET

Inhalation Lactose Market Pivotal Point and Competitive ...

SuperTab®30GR Granulated lactose from DFE Pharma - Product Description and Details SuperTab®30GR Granulated lactose from DFE Pharma Granulated lactose is the least hygroscopic of all grades of direct compression lactose. This property makes SuperTab® 30GR lactose ideal for formulations where control of total water content is important.

SuperTab®30GR Granulated lactose from DFE Pharma - Product ...

SuperTab® 11SD is a highly consistent, spray-dried monohydrate lactose enabling efficient tableting by offering free flow properties. It is developed to combine the high compactability of finely milled lactose with good flow properties of spherical spray-dried particles. Especially for low dose formulation SuperTab® 11SD is well suited to ensure content uniformity.

SuperTab 11SD – DFE Pharma Estore

DFE Pharma is the only global excipient manufacturer offering it's customers both lactose and microcrystalline cellulose products for development of pharmaceutical formulations. Combination of Pharmacel® with one of the lactose grades offered by DFE Pharma provides additional benefit to formulations, by achieving the perfect combination of brittle and plastic excipient behaviour.

Pharmacel 102 – DFE Pharma Estore
