## Landscape

A landscape is the visible features of an area of land, its landforms, and how they integrate with natural or man-made features. A landscape includes the physical elements of geophysically defined landforms such as (ice-capped) mountains, hills, water bodies such as rivers, lakes, ponds and the sea, living elements of land cover including indigenous vegetation, human elements including ...

Landscape definition and meaning | Collins English Dictionary

The appreciation of nature for its own sake, and its choice as a specific subject for art, is a relatively recent phenomenon. Until the seventeenth century landscape was confined to the background of portraits or paintings dealing principally with religious, mythological or historical subjects (History painting). Today, landscape continues to be a major theme in art with many artists using ...

landscape - English-Spanish Dictionary - WordReference.com  
Landscape-scale conservation. Landscape-scale conservation has emerged from the recognition that conservation needs to move beyond nature reserves and consider the full range of factors in the landscape that influence wildlife and people (Ahern, 2012). The scale at which we think and act is critical. If our action is to be effective, we need to ...
