This document is an unofficial reference manual for L^AT_EX, a document preparation system, version of October 2018. This manual was originally translated from L^AT_EX.HLP v1.0a in the VMS Help Library. The pre-translation version was written by George D. Greenwade of Sam Houston State University. The L^AT_EX 2.09 version was written by Stephen Gilmore. The L^AT_EX 2_ε version

L^AT_EX 2_ε: An unofficial reference manual - TeX and LaTeX ...

This page contains references to core documentation about LaTeX written by the LaTeX team. Articles on specific topics, talks, etc. can be found on the publication page indexed by topic. In addition pointer to documentation in other languages (usually developed and maintained by user groups) is given.

LaTeX Documentation

A reference list is nothing more than a, well, list. A list with anchors, or keys, to properly refer to the different list items. The list environment is called thebibliography, it takes one mandatory argument. Every item in the list starts with `\bibitem{bibkey}`. Citing an entry from your references works similar to the label and ref mechanism.
