housing bar 135 metres long, 24 metres wide, 56 metres high and mounted on stilts.

~~Unité d'habitation – Le Corbusier – World Heritage~~

The Unité d'habitation (French pronunciation: ? [ynite dabitassj??], Housing Unit) is a modernist residential housing design principle developed by Le Corbusier, with the collaboration of painter-architect Nadir Afonso. The concept formed the basis of several housing developments designed by him throughout Europe with this name.

Corbusier 1947-1952. The Marseille unité d'habitation brings together Le Corbusier's vision for communal living with the needs and realities of post-war France. Up to 1600 people live in a single-slab 'vertical village', complete with an internal shopping street halfway up, a recreation ground and children's' nursery on the roof, and a generous surrounding area of park land made possible by the density of the accommodation in the slab itself.

~~Unité d'habitation (Cité Radieuse) Marseille by Le Corbusier~~
In 1947, Europe was still feeling the effects of the Second World War, when Le Corbusier was commissioned to design a multi-family residential housing project for the people of Marseille that were dislocated after the bombings on France.
