Stephen Pople, one of today's most respected science authors, has created a totally new physics book to prepare students for examinations. Complete Physics covers all syllabuses due to a unique combination of Core Pages and Further Topics. Each chapter contains core material valid for all syllabuses. Further Topics at the end can be selected to provide the right mix of pages for the syllabus you are teaching. Key Points: · Totally new book constructed from an analysis of all GCSE Physics syllabuses including IGCSE, CXC, and O'Level · Sets the traditional principles of physics in a modern and global perspective and uses illustrations with a worldwide context · Extra topics to give a truly rounded curriculum · Double-page spread format · Ideal for those students intending to take physics to a more advanced level

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called "Ideological State Apparatuses", law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Desktop Rugby brings the excitement of rugby right to your fingertips. Included is everything you need to play the game--a goal, ball, tee, flag, and mini referee figurine to call that foul. Kit also includes a 32-page book on the history and rules of the game.

Fourteen-year-old Rooney loves hip-hop almost as much as she loves her grandmother. She cannot wait to compete in her school's dance competition. But as her grandmother's health deteriorates, Rooney becomes more and more reluctant to visit her in the care home. These feelings of guilt and frustration cause Rooney to mess things up with her hip-hop dance partner and best friend, Kira. But while doing some volunteer hours in the hospital geriatric ward, Rooney meets an active senior recovering from a bad fall. Their shared love of dance and the woman's zest for life help Rooney face her fears, make amends with Kira and reconnect with Gram before it's too late.

Warfare in the twenty-first century goes well beyond conventional armies and nation-states. In a world of diffuse conflicts taking place across sprawling cities, war has become fragmented and uneven to match its settings. Yet the analysis of failed states, civil war, and state building rarely considers the city, rather than the country, as the terrain of battle. In *Cities at War*, Mary Kaldor and Saskia Sassen assemble an international team of scholars to examine cities as sites of contemporary warfare and insecurity. Reflecting Kaldor's expertise on security cultures and Sassen's perspective on cities and their geographies, they develop new insight into how cities and their residents encounter instability and conflict, as well as the ways in which urban forms provide possibilities for countering violence. Through a series of case studies of cities including Baghdad, Bogotá, Ciudad Juarez, Kabul, and Karachi, the book reveals the unequal distribution of insecurity as well as how urban capabilities might offer resistance and hope.

Through analyses of how contemporary forms of identity, inequality, and segregation interact with the built environment, *Cities at War* explains why and how political violence has become increasingly urbanized. It also points toward the capacity of the city to shape a different kind of urban subjectivity that can serve as a foundation for a more peaceful and equitable future.

Japan's greatest seer, the blind prophet Hinoto, has foretold the end of the world. At the center of her prophecy is a young man named Kamui Shiro, who possesses startling psychic powers. Although Kamui's future seems to have been predetermined from his birth, he has a choice--save the earth, or destroy it.

"This Equals That ... takes viewers on a whimsical journey, while introducing them to the fundamentals of visual literacy and teaching them associative thinking"-- Aperture learning guide.
