## **Make Architects**

Making offers a series of profound reflections on what it means to create things, on materials and form, the meaning of design, landscape perception, animate life, personal knowledge and the work of the hand. It draws on examples and experiments ranging from prehistoric stone tool-making to the building of medieval cathedrals, from round mounds to monuments, from flying kites to winding string, from drawing to writing.

Software Architecture Group  
Decision Making Both  
practitioners and  
researchers recognize that  
software architecture  
decision-making is a group  
process that involves  
several stakeholders  
discussing, evaluating and  
shortlisting architectural  
decisions.

## **Architectural decision - Wikipedia**

We are used to think of

# Access Free Making Architecture

making as a 'project', with a rather precise idea in mind of what we like to produce (a plan, a design) and a supply of materials to achieve it. Ingold contrasts this 'hylomorphic' model with a 'morphogenetic' approach that enacts making as a contingent process of growth.
