Introducción al Manual de Publicación Estilo APA

This book describes models and techniques to help mediators deal with the peculiar problems that arise in traditional bargaining. The following subjects are covered: the realities of negotiating about money; skills of the mediator; ethical standards in the mediation of civil litigation; and charting settlement conference proposals.

Presents new ways of thinking about parental involvement in the teaching of reading and writing aimed at both researchers and practitioners. It relates the recent

comprehensive, up-to-date information on the theoretical principles and practical applications of dielectric integrated guides and circuits.

The state-of-the-art in NMR spectral analysis. This interactive tutorial provides readers with a comprehensive range of software tools and techniques, as well as the necessary theoretical knowledge required to analyze their spectra and obtain the correct NMR parameters. Modern Spectral Analysis provides expert guidance, by presenting efficient strategies to extract NMR parameters from measured spectra. A database of selected spectra and modern, powerful WIN-NMR software designed by

Bruker are provided on the enclosed CD-ROM. The programs provided are 1 D WIN-NMR, WIN-DAISY, WIN-DR and WIN-DYNAMICS, and direct data exchange between all these programs is possible. Readers are shown how they can obtain maximum structural information from their 1 D NMR spectra with time-saving computer assistance. Practical problems that can occur and their solutions are discussed at length using clear, easy-to-follow examples. Both homo- and heteronuclear and first- and second-order spin systems are demonstrated. Moreover, relaxation analysis, nuclear Overhauser effects and magnetic site exchange are all covered in this hands-on guide to NMR
