TECHNICAL MANUAL DRAFTING.

Five major advantages of manual drafting: 1. Work Done is Original: In the past, drafters sat at drawing boards and used pencils, pens, compasses, protractors, triangles, and other drafting devices to prepare a drawing by hand. When doing manual drafting, most of the drafting work is done by technical people like the architect / engineer / diploma holders making their work to be genuine.

## Technical Product

An engineering drawing is a type of technical drawing that is used to convey information about an object.

A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component.
